Overview

Highly motivated and detail-oriented Software Engineer with strong foundations in Data Structures & Algorithms and hands-on experience in Web Development. I am eager to apply my skills and passion for problem-solving in a dynamic and challenging environment.

Technical Skills

- **Programming Languages:** Java, JavaScript, Python, C++
- **Web Development:** HTML, CSS, JavaScript, React, Node.js
- **Databases:** MySQL, MongoDB
- **Tools & Technologies:** Git, RESTful APIs, Agile methodologies
- **Other Skills:** Problem-solving, Critical thinking, Team collaboration

Education

KCC Institute of Technology and Management

Bachelor of Technology 2021-2025

Greater Noida World School

HSC 2020-21, SSC 2018-19

Projects

E-commerce Website

Technology used: HTML, CSS JavaScript, PHP, Python

Description: Developed a static website to showcase content and information. Integrated PHPMailer to enable email communication directly from the website. Utilized Python scripts to automate backend tasks and connected with the WhatsApp API to facilitate real-time notifications and messaging functionality. This project improved user engagement by offering multiple communication channels.

Fitness Fusion

Technology Used: React, RapidAPI, Material UI

Description: FitFusion is the ultimate React Fitness App, offering over one thousand exercises categorized by muscle groups, with detailed examples and pagination. Enhance your experience with YouTube video integrations and similar exercise suggestions.

Certification

Data Structures and Algorithms and Full Stack Web Development Training by Diginique Techlabs – May 2022 to April 2023

Actively participated in numerous hackathons, leading teams of coders to develop innovative solutions under tight deadlines. Demonstrated strong leadership, collaboration, and technical skills in a high-pressure environment.
